

District Advisory Committee Notes

January 31, 2019

Introduction & Review of Group Norms	School teams introduced themselves and shared one word they would want for our students. The DAC reviewed the group norms and no revisions were made.
Overview of the Role of DAC and LCAP	There was a presentation on the establishment of DAC, the district mission, and an overview of the LCAP including the 8 guiding principles and cycle.
LCFF Dashboard Overview	There was a presentation on the LCFF Dashboard, what qualifies a district for Differentiated Assistance, understanding the data and the layout.
Dashboard Data Dive	Each site team worked on identifying data and the Dashboard color, status and change for indicators on academics, suspension, and attendance. This data was displayed throughout the room and contained district and site data.
Data Reflection & Sharing	Teams then reflected and responded to the following questions: 1) What do you notice about the data? 2) What questions do you have about the data? 3) What additional data or information do we need? and 4) How does the site data compare to the district-wide data? This information was reported on chart paper posters and each team shared what was recorded.
Celebration and Highlights	The district celebrations were highlighted and included: increases from yellow to orange in both ELA and Math. Suspensions increased, so no growth was made, and data for chronic absenteeism serves as a baseline.
Closing: Communication Plan	Each site drafted a Communication Plan noting who, when, and how this information will be shared with other staff which is to include the DAC process/experience and site bright spots and next steps.
